About the School

The Balsillie School of International Affairs (BSIA) is an institute for advanced research, education, and outreach in the fields of global governance and international public policy.

As a hub in a global network of scholars, practitioners and students, the BSIA aims to develop new solutions to humanity's critical problems, improve global governance now and in the future, and enhance the quality of people's lives around the world.

Founded in 2007 by philanthropist Jim Balsillie, the BSIA is an equal collaboration among the Centre for International Governance Innovation (CIGI), the University of Waterloo (UW), and Wilfrid Laurier University (Laurier). The collaborating institutions bring to the BSIA different but complementary strengths, so they have different roles and responsibilities.

The two universities employ BSIA faculty and offer BSIA's academic programs, while CIGI, as a think tank, uses its in-house expertise and its worldwide network of practitioners to help inform and guide BSIA's outreach and collaborative research. The BSIA is also the home to four research centres with an international profile - the International Migration Research Centre; the Laurier Centre for Sustainable Food Systems; the Canadian Network for Research on Terrorism, Security and Society; and the Hungry Cities Partnership.

The unique integration of the collaborating institutions' approaches and cultures gives BSIA an unmatched ability to promote vigorous engagement across boundaries of discipline and practice, to connect today's experts with tomorrow's leaders in critical debate and analysis, and to achieve—in all its work—the highest standards of excellence.

Highlights of the Year

The academic year of 2021-2022 saw the gradual reopening of the post-COVID world and a “hybridization” of teaching and research programs in international affairs. The School took a balanced, measured and cautious return to the building – an approach which reflected the policies of both government and our collaborative partners. Ongoing challenges notwithstanding, we were grateful to the entire BSIA community – staff, faculty, fellows and students – for their efforts to maintain a strong connection and contribution during this important transitional year.

In September 2021, we were once again delighted to welcome a large cohort of MIPP, MAGG and PhD students. Mr. Jim Balsillie, the School’s founder and donor, presided as keynote speaker at the students’ virtual orientation day.

Throughout the course of the year, the BSIA community benefitted from its affiliate membership in the Association of Professional Schools of International Affairs (APSIA). The School’s participation in quarterly APSIA Deans and Directors’ meetings provided regular opportunities and an additional platform to interact with like-minded institutions from across the globe. The meetings enabled the sharing of good practice, as well as ideas for both community-building and growth.

The School welcomed and supported a number of student-led events during the year. An evening of “Hadithi Hadithi” – a community-building activity using story-telling – was held in the BSIA courtyard. The Global Climate Action committee launched a community garden, also in the courtyard, which produced a beautiful array of fresh vegetables and herbs in its first year, which were offered to everyone at the School.

The Balsillie Executive Institute (BEI) continued to develop throughout this period. New short courses were added to its roster, and a number of courses were delivered to Global Affairs Canada (GAC). The emphasis on short course delivery also addressed important areas of experiential learning for our students, which resulted in short course offerings in areas such as monitoring & evaluation, as well as training in strategic communications, media engagement, interview skills and the development of personal profiles.

Beyond the BEI’s support for revenue generation, the School was successful in receiving SSHRC funding to support the 2022 Next 100 Symposium (N100). We were also delighted to win a contract to mentor the winners of GAC’s International Policy Challenges program.

The GAC Fellowship program continued to impact positively on the BSIA student experience. Thanks to the support of a number of mentors from the School’s faculty, fellow and PhD student groups, the GAC Fellowship presentations and written policy briefs received excellent feedback from both our sponsors and the presiding course directors. The publication of the previous year’s GAC Fellowship program anthology, entitled “Aftershocks: 2022 Global Trends Report”, served as another tangible achievement for the graduate students who contributed to it. The School continues to place great value on the opportunity our students have to publish in a policy-relevant edited volume.

One of this year’s most important initiatives was the redevelopment of the BSIA management team and the appointment of two new Associate Directors, Dr. Neil Craik and Dr. Patricia Goff. The management team’s monthly meetings have brought critical strategic level capacity to the School in terms of senior leadership experience and important links to our collaborative partners.

The School’s commitment to its many international partners further strengthened during the year. In-person engagements with partners in the United States, United Kingdom, Germany and Africa strengthened the basis for follow-up initiatives and forms of virtual cooperation. In this context, a number of the School’s faculty and students participated in a Warwick University faculty retreat to discuss ideas for future research collaboration. Similarly, a number of BSIA

faculty supported a summer short course program at Konstanz University. Based on a decision to host the N100, the School collaborated with both CIGI and the Global Arena Research Institute to host research roundtables and the symposium, which will take place in Waterloo in September 2022.

Throughout the year, and as evidenced in the many citations captured in later sections of this report, our faculty, students and fellows were active in the media and in producing policy-impactful research. A number of these publications were award-winning, and recognized in book prize lists such as the Hill Times. The BSIA staff’s regular engagement with both domestic and international stakeholders provided excellent challenges to promote the School’s research in international affairs. The ongoing recognition of BSIA faculty members through promotions and appointments reflects the strength of our community. Numerous faculty members and students were also successful in securing prestigious research grants and awards.

The BSIA research clusters continued to make an important contribution to the dynamic and steady roster of events hosted by the School. We are grateful to all faculty, fellows, students and staff members who help make these events interesting, and successful in execution. We were delighted to host Professor Amitav Acharya from the American University’s School of International Service, at the 2022 annual Balsillie Lecture. In addition to a high number of webinar panels, guest speakers and research roundtables, we were also pleased to host a distinguished lecture featuring the outgoing CIGI President, Dr. Rohinton Medhora.

Sadly, the BSIA did have one major loss this year, and that was the Y Café and its kind and wonderful owners. Sam and Stella had been a part of the campus since the very beginning, crafting delicious

coffees, and serving sushi, bibimbaps, butter tarts, and their famous tuna sandwiches. We were so fortunate to have them on campus each day, as they also provided catering for our many events and workshops. We miss them very much, and wish them well as they settle into their new life in the Maritimes.

As we continue navigating not only a post-COVID world, but also one which continues to be challenged by significant geopolitical shifts and concerning global trends, I want to acknowledge the hard work of the entire BSIA community in making this another outstanding year for the School. I look forward to moving forward together into next year and, through our reputable taught courses, research programs, and strong community spirit, continuing to look for solutions to humanity’s critical challenges.

Research Cluster Events

Every year, the Balsillie School hosts approximately 100 events, with almost half of those organized by the Research Clusters at the School. Each Research Cluster is assisted by a PhD candidate, who acts as the Support Officer for the cluster events along with the School's Events and Administrative Coordinator. The Support Officers also manage the research cluster webpages, and organize the cluster meetings. This year, all the events were hosted virtually, which opened up our audience reach significantly, as most cluster events are free and open to the public.

Conflict and Security

Research in this cluster includes work on confidence building, the nexus between economics and security, the role of ideology in conflict, critical approaches to security and human security, and human rights.

Balsillie Papers

The Balsillie Papers provide clear, concise, peer-reviewed articles about today's most complex issues in global governance and international affairs. During the 2021-2022 academic year, another five Balsillie Papers were published, including two Special Commentaries.

Written predominantly by BSIA Faculty, Fellows, and students, the Papers have been well-received by policymakers and knowledge mobilizers. The Papers translate rigorous, interdisciplinary research into succinct prescriptions aiming to solve humanity's most critical problems and improve lives around the world. Bridging sophisticated research with practice in a compact and digestible form, the objective of the Balsillie Papers is to provide a window into the intricate workings of international politics today.

Board of Directors (as at Aug. 31, 2022)

Jeff Casello
Chair

Jeff Casello is the Associate Vice-President of the Faculty of Graduate Studies and Postdoctoral Affairs at the University of Waterloo. Jeff's interests lie in urban transportation systems and their impacts on healthy and economically viable urban areas. As such, he conducts research on the planning, design and operation of systems that promote efficient, balanced transportation, enhances regional economic competitiveness and supports social mobility. Jeff has worked with many transit agencies and cities in the US, Canada and abroad. These include Singapore (Land Transport Authority), Washington DC (WMATA), Houston (METRO), Philadelphia (SEPTA), the Regional Municipality of Waterloo (GRT), the City of Kingston and Mexico City (DF).

Shelley Boettger
Treasurer

As the Centre for International Governance Innovation (CIGI)'s chief financial officer and director of operations, Shelley Boettger provides corporate leadership and strategic guidance on all financial aspects of the organization. Shelley is responsible for the management of CIGI's financial systems and investment portfolios, as well as for managing operations and providing financial advice to senior leadership. An expert communicator and driver of effective change management, Shelley brings to the organization a unique perspective as a corporate leader, with a focus on managing high-performing teams.

Brent Wolfe
Secretary

Brent Wolfe has held various research, faculty, and administrative positions at Wilfrid Laurier University since 2002. This includes holding one of six NSERC Northern Research Chairs in Canada from 2002-2012. Prior to taking on the role of Acting Associate Vice-President and Dean of the Faculty of Graduate and Postdoctoral Studies (FGPS), he served as Associate Dean of FGPS from 2018-2022. Recognitions include the Premier's Research Excellence Award (Ontario Ministry of Enterprise, Opportunity and Innovation; 2003) and the Premier's Award for Collaboration – Team Category ('Slave River and Delta Partnership'; Government of the Northwest Territories; 2012).

Jenna Hennebry
Member

Jenna Hennebry is Associate Dean at SIPG, an Associate Professor in the Department of Communication Studies and the Balsillie School of International Affairs, and Co-Founder of the International Migration Research Centre at Wilfrid Laurier University. She has carried out globally comparative research on labour migration governance, migrant worker rights and health, as well as gender, mobilities and migration for over 15 years. She has consulted for UN Women, the International Organization for Migration (IOM), and multiple government agencies.

Laura Kacur
Member

Laura Kacur is the Director of Human Resources at the Centre for International Governance Innovation (CIGI) where she is responsible for all aspects of people and culture, including talent acquisition and development, employee engagement, total compensation and organizational effectiveness. Laura also provides HR consulting support to the Arctic Research Foundation. Prior to joining CIGI in the summer of 2018, Laura held HR leadership positions in Canada and the United States, primarily in the high-tech and medical devices sectors.

Jatin Nathwani
Member

Professor Jatin Nathwani is the founding Executive Director of the Waterloo Institute for Sustainable Energy (WISE) and the inaugural Ontario Research Chair in Public Policy for Sustainable Energy (2007-2020) at the University of Waterloo. He co-directs the Global Change Initiative – Affordable Energy for Humanity (AE4H), comprising 150+ leading STEM experts, social scientists, and practitioners from 50+ institutions in 30 countries committed to eradicating global energy poverty. Prior to his academic appointment, Professor Nathwani worked in a leadership capacity in the Canadian energy sector for 30 years. He has provided policy advice to the federal and the provincial governments.
