

School Supplies for Sudan Fundraiser

[School Supplies for Sudan](#) is a campaign to provide necessary supplies for primary and secondary school children in rural communities in Khartoum, Sudan. This campaign has a goal of \$4,000, all of which will cover the costs of purchasing school supplies in Sudan.

Supplies will be purchased and distributed evenly among students at an all-girls school in North Khartoum, Sudan. Once available, a short film of this process will be created and shared on [Instagram](#) and [Facebook](#) (@SchoolSuppliesForSudan).

Donating school supplies is a meaningful way to make a difference. Your donation will directly help Sudanese students obtain the tools they need to learn throughout the school year. It will also help relieve some of the stress and financial burdens for families and teachers. A donation of \$5, \$20, \$50, \$100, or more will go a long way to support students access resources that will significantly improve their learning.

About the Organizer: Suha Osman is a Global Studies and Political Science Alumna and a recent graduate from the Master of International Public Policy (MIPP) program at BSIA. She is also a Sudanese-Canadian traveling back home to Sudan in 2023. With the early part of her childhood spent in Sudan, Suha has grown up personally aware of the barriers to education. Students in rural communities are exposed to degrading infrastructure, a lack of teachers, limited school supplies, and other compounding health, political, and social factors, which leave Sudanese children vulnerable to dangers such as abuse, exposure to exploitation, and recruitment into militant groups. Through this initiative, Suha hopes to encourage communities to come together and contribute to the improved learning of as many students as possible.

Students deserve access to quality education, and we have a responsibility to act. <https://gofund.me/e599636d>
